SUBARU LIFT KITS

WHAT'S IN A SUBARU LIFT KIT?

Pedders Subaru Lift Kits are designed to enhance the off-road performance of Subaru vehicles, allowing them to tackle rough terrain with greater ease and confidence.

Featuring pre-assembled struts constructed with Pedders precisely tuned shock absorbers, coil springs, strut mounts and bump stop and boot kits. Each Pedders Lift Kit has been meticulously engineered and has everything required to ensure the best overlanding performance possible for your Subaru.

SUBARU LIFT KITS

FUNCTIONALITY OF A PEDDERS LIFT KIT

Increased Ground Clearance: The Lift kits have been designed to raise the vehicle 2 inches, providing clearance over obstacle like rocks, ruts and debris.

Improved Approach and Departure Angles: By lifting the vehicle, the angles at which the front and rear of the vehicle approach and depart obstacles are increased, increasing vehicles ability whilst reducing the risk of damage.

Enhanced Visibility: Lifted vehicles offer better visibility over obstacles and terrains features, improving the driver's ability to navigate challenging off-road trails.
